I am pleased with the home/school relationship

Overall, I am happy with my child's experience this year at St Luke's

99%

This year we have been pleased with:

Extra curricular activities.

The school trips were memorable and my child was enthusiastic about clubs. The Record of Achievement was detailed and helpful.

School's helping hands since we join this school.

The number of external visits, workshops and learning enrichment days. The change in the variety of sporting activities and accessibility of sport in the school. The number of sporting tournaments and friendlies against other schools enabling more children to feel proud of representing their school and gaining confidence.

The trips and workshops have been great this year and it is appreciated that so much variety is offered to the children.

I am very pleased with my child's achievement in phonics, the teachers have done amazing job, and she's more into reading and writing.

Support and overall experience at school.

The school environment seems to nurture positive relationships between all the children. After school my child often plays with the older children from y6 and their attitude towards him speaks volumes of the school. They are always supportive and caring of him making sure to include him and not let him ruin their fun! It's so lovely to see how kind they are.

Positive and friendly nature of teachers towards their students.

How much the staff genuinely care & go above and beyond to give all pupils the very best experience.

I have appreciated the good communication.

Stretch activities in class.

The culture of the school, creating a friendly welcoming environment.

How my child has settled.

Having the opportunity to participate in all those tournaments- particularly the basketball - has boosted my child's self-confidence enormously! They have also loved being in the choir and the production.

My child loved the school trips. They also generally love coming to school and wants to be the first to be there every morning.

Wonderful teachers and TA, they have been so supportive with the class. A great team for the school!

Progress in reading, writing and numeracy.

St Luke's is a wonderful school.

Physical and social development of my child.

Overall development of the child, both in sports and academia has been encouraging. Extra-curricular activities have also be very useful for the development of children. The school staff have always been available to respond to queries and are the most gentle people one can hope for. A. big thank you!

Email correspondence has been really good. The frequent phonics tests have been great in keeping track of my child's progress.

School's support and open communications.

My son truly appreciates his teachers and their caring way of teaching.

My child has really improved their English writing skills. This year, they have a wonderful friendship group and this is something which was very important to us.

The number of morning clubs offered by the school.

My child's progress especially in English. Extra curriculum opportunities especially related to sport. The football World Cup was a really nice idea to energise the children.

Progress with reading and handwriting.

Pastoral care provided for my child.

My child has become more independent.

Communication from school to home and reading progress.

The support from all nursery staff.

How well he has settled into school, his reading, being so happy, learning through a play based approach, tapestry.

I have really been please that there are more sporting fixtures and opportunities, especially for the girls.

Increased opportunity for children (especially girls) to partake in team sporting events that represent the school. We feel very strongly that every year our child has been continually supported and her successes recognised at St Luke's.

We are satisfied in everything. On the learning side, my son has greatly improved his English and reading. The staff is incredible and super friendly, we have always felt super comfortable and happy at school. Every activity or event that is done, as well as the rest, is good. we are really very satisfied

The strength of teaching, enabling increased confidence, not just in academic subjects but all round.

The music opportunities both in school and external e.g. choir performance at Kingston Christmas market, Kingston Music Service singing festival.

The introduction of new sporting clubs e.g. cricket and increased opportunities to play matches against other schools.

The school has been excellent as my child has quickly settled in and felt comfortable and safe. He transitioned well and that was credit to the teachers and the staff at St Luke's.

The teaching quality and class management with a class of a lot of boys! The KS1 production was great. It was lovely to have year 2 join KS2 for the sports day at Kingsmeadow.

The progress he has made, the opportunities he has been given and the enthusiasm he has for school.

He has enjoyed the increase in opportunities for sporting activities in lunchtime and after school. It has been helpful screening him for learning needs, so it can start to be recognised early and we can put the right support in place at home. Thank you for all you do for him.

My child has enjoyed coming to school and progressed well academically all round but especially with her times tables thanks to the weekly tests and encouragement from staff.

The attitude that the school takes towards its pupils. I also like that the school does not take itself too seriously - for example, everyone seemed to enjoy the sports day walk-out through the parent tunnel and the school houses competing.

We would like to make the following suggestions:

Modernise the school uniform.

Clearer information on homework requirements and deadlines.

Continued improvement in communication with parents regarding curriculum and child's progress throughout the year.

Less junk sweets at Christmas & Summer fairs and afterschool. More natural products.

Longer hours of school days.

I would politely suggest a return to drumming for future year 4 children.

Allowing the children to have their Yr6 hoody's earlier.

We love St Luke's and can't think of anything we would want to change.

The students to take part in more borough sports competitions.

More emphasis on other sports and not just football.

I think there could be more communication between teachers and parents. We have parents' evening but it is only twice a year and for 10 minutes. Would be good even if we could get some email updates on how they are doing in the lessons.

That clubs (internal and external) continue till the end of term.

To continue providing opportunities for the children across age groups to mix and work together as my child always enjoys these opportunities.

Keep up the great work. From our experience the school has been great and we appreciate and are totally grateful that our child got to spend a year at St Luke's. The only thing trivial suggestion would be for Friday lunch there could be more variety, fish fingers gets old quite quickly.

Just keep doing it the same way with the same love and passion to the children! Thank you!

Please do not change the staff, they are all doing a great job.
